SKIN AND BODY TREATMENTS DELIVERED BY PROFESSIONALS

BEAUTY THERAPY | MEDISPA

The Beautique difference

Way back in 1981 two bright young beauty therapists had a vision. A vision of a business that offered superior treatments and products to the people of Gosford. But it was more than that. They dreamed of a salon that was modern but welcoming, warm and friendly yet professional. And so Beautique was born. Beverly Bowman and Rosemaree Gough Jones opened their first salon in Watt St Gosford and quickly gained a loyal clientele - some of those first clients are still with us today! More salons followed, as did numerous business and beauty industry awards, acknowledging Beautique for its professionalism, quality and progressive approach to skin and body rejuvenation.

Beverly and Rosemaree have stayed true to their vision, keeping up to date with the continuous advancements in the beauty industry. "One of the most rewarding aspects of being in the industry for so long is seeing it grow from 'feel good' cosmetic treatments to highly advanced treatments that can actually change people's skin, making them feel infinitely better about themselves" says Beverly. Sourcing the best in skincare products from Australia and around the world, and utilising the highest grade medical equipment means clients can experience superior outcomes. Our emphasis on education and development ensures Beautique's family of therapists can exceed our client's expectations.

We do understand it's difficult to try a new salon however if it's results, professionalism and superior quality you're after, visit your nearest Beautique Beauty Medispa...Experience the Beautique difference.
